

High Speed Gearbox HSGB 350

- Splitter gearbox HSGB-350 allows up to three pumps to be fitted on the same power take off.

- Splitter gearbox HSGB-350 has a gear ratio of 1:1 on one take off and 1:2.5 and 1:3.5 on the other two take offs, which give additional combination options.

Technical Specifications:

No of inputs	1
Input Revs/min	1800 (Max)
Input Torque (Nm)	350 (Max)
Outputs	3
A output Revs/min	1800 (Max)
A output Torque (Nm)	350
A Gear ratio	1
A direction	Same as input
B output Revs/min	4490
B output Torque (Nm)	45
B Gear ratio	2.5
B direction	Opposite as input
C output Revs/min	6350
C output Torque (Nm)	25
C Gear ratio	3.5
C direction	Opposite as input

Input shaft can be splined for diff clutches
Custom sized bell bouhsing can be provided
Clutch actuation can be provided
Fluid cooling ports 1/2 NPT
